Born in the melting pot of impressions and cultural shifting the history of the iconic STOFF Nagel design holds a fascinating story from American cartridge cases transformed into candle holders, ashtrays and vases during the Second World War to a world-famous design considered among the most iconic of its time - and in 2015 relaunched by Danish STOFF Copenhagen.

## SCULPTURAL DESIGN BY ARTISTS

It was the visual artist and architect Werner Stoff who in the late 1960's designed the original candle holder design for his friend Hans Nagel. Their shared love for good design and passion for art launched an adventure much like humankind's desire to reach the moon, motivated by the vast technological achievements of the decade and honed by the boom in individualist expression.

# THE STORY

1939-1945  
WORLD WAR II

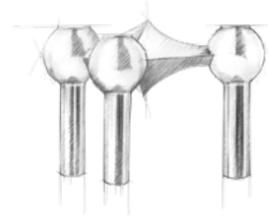

The Nagel family was deeply affected by the war. The four Nagel brothers were sent out at night to collect empty American cartridge cases.

Their blacksmith father transformed it into ashtrays, vases and candle holders.

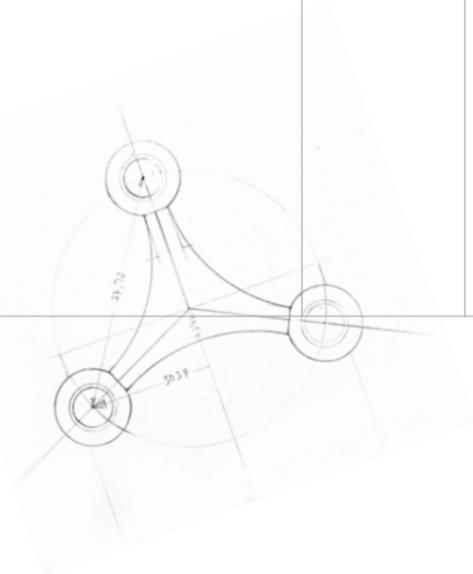

Mid 1960  
THREE HOLES IN THE SNOW

One of the sons, Hans Nagel, was struck by an idea during a skiing vacation. By an accidental backward tumble, he created the finest three finger holes in the snow. The perfect holes brought a candle holder to mind. Nagel asked the architect Werner Stoff if he would like to design it for him.

Late 1960s  
THE BIRTH OF AN ICON

The Nagel candle holder was launched with great success in the late 1960s and the design turned things around for the Nagel family, making their company world famous.

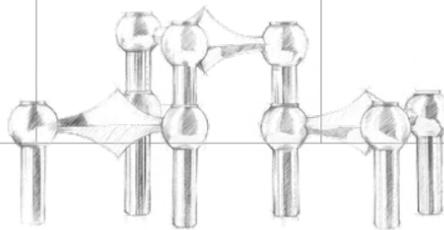

2015

## RELAUNCH

### BMF CANDLE HOLDER

The BMF candle holder is among the most iconic candle holder designs from the prominent design decade of the 1960's. The candle holder was originally designed by the Nagel company in the late 1960's, but shortly after its launch it was handed over to the BMF company and produced from 1971 to 1985.

Today the BMF candle holder has joined the STOFF Nagel collection to continue the vision of rediscovering iconic design.

Available from October 2022.

# BLACK CHROME

## CANDLE HOLDER

The dark metallic candle holder edition is rooted in the classic chrome color. The futuristic expression brings elegance and a masculine vibe into the interior decor.

## ROSE GOLD

### CANDLE HOLDER

The rose gold STOFF Nagel candle holder is an elegant interpretation of the classic candle holder colors. The soft, golden-tinged shade of pink adapts discreetly into its surroundings.

A refined and composed color adored by all in the STOFF Nagel team.

REFLECT

CANDLE HOLDER

Reflect is considered a beautiful continuance of our vision creating timeless candle holder designs. With its simplicity of design combined with geometrical shapes, the Reflect candle holder plays with reflections and light adding a visual intrigue into the spaces surrounding it. The candle holder is available in a small and large edition in three different colors, making it possible to create beautiful color combinations including both traditional candles and STOFF Nagel taper candles.

Launching in Autumn 2022.

# THE CANDLE HOLDER

The STOFF Nagel candle holder is a true design icon. A candle holder epitomizing its era of creation and creators: a utilitarian testament to form and functionality, doubling as a sculpture that honors creative individualism.

The beloved STOFF Nagel candle holder has been a bestseller in Europe for generations exhibited in the global world of art.

Today the STOFF Nagel design has become a collectors item in homes around the world. It is considered a work of art - a personal statement and malleable sculpture ready to assume the shape of its owner's unique creativity.

# CANDLES

The exclusive STOFF Nagel candles are made to fit perfectly in the STOFF Nagel candle holders. They are all made of pure paraffin wax, a mineral product cleansed of impure particles. The cotton wicks are made of 100% cotton which releases fewer particles than traditional wicks. The candles are solid-colored for an exclusive and rustic look.

Item no.	26001	26002	26003	26004	26005

## TAPER CANDLES

The exclusive, hand-dyed taper candles by Danish ester & erik have a long and tapered shape with a cone-shaped bottom to make them fit perfectly in the STOFF Nagel candle holders. The candles do not drip, are self-extinguishing and burn out slowly so that no residues are left in the candle holders.

The candles are made from the most highly refined paraffin wax – a pure mineral product derived from a natural raw material, which makes it the most sustainable sort of wax. The uncompromising use of raw material means that the candles burn 30% longer than other candles.

Item no.	36020	36021	36022

A hand-drawn technical diagram of a mechanical linkage system. It features three circular components, each with a central hole and a smaller concentric inner hole. The components are connected by curved links. Dimension lines with handwritten labels are present: '27,72' indicates the distance between the centers of the top and middle components; '50,5F' indicates the distance between the centers of the middle and bottom components; and '4,42' indicates the distance between the centers of the top and bottom components. The drawing is a pencil sketch on a light-colored background.
